

**FINAL EDUCATION PERFORMANCE AUDIT REPORT
FOR**

BEECH BOTTOM PRIMARY SCHOOL

BROOKE COUNTY SCHOOL SYSTEM

AUGUST 2008

WEST VIRGINIA BOARD OF EDUCATION

INTRODUCTION

An announced Education Performance Audit of Beech Bottom Primary School in Brooke County was conducted on March 20, 2007.

A Follow-up Education Performance Audit of Beech Bottom Primary School was conducted May 30, 2008. The purpose of the follow-up was to verify correction of the findings identified during the original Education Performance Audit. The review was in accordance with West Virginia Code §18-2E-5 and West Virginia Board of Education Policy 2320 which specify that a school that meets or exceeds the performance and progress standards but has other deficiencies shall remain on full accreditation status and a county school district shall remain on full approval status for the remainder of the accreditation period and shall have an opportunity to correct those deficiencies. The Code and policy include the provision that a school “. . . does not have any deficiencies which would endanger student health or safety or other extraordinary circumstances as defined by the West Virginia Board of Education.”

SCHOOL PERFORMANCE

This section presents the Annual Performance Measures for Accountability and the Education Performance Audit Team's findings.

10 BROOKE COUNTY

Mary K. Hervey DeGarmo, Superintendent

201 BEECH BOTTOM PRIMARY SCHOOL – Passed

Richard Whitehead, Principal

Grades K - 04

Enrollment 95 (2005-06 2nd month enrollment report)

WESTEST 2005-2006

ANNUAL PERFORMANCE MEASURES FOR ACCOUNTABILITY

Met Standard.

5.1.1. Achievement.

The all students (AS), racial/ethnicity white (W), and economically disadvantaged (SES) subgroups, with the number (N) less than 50, scored below the State's percent proficient in mathematics. Furthermore, a significant achievement disparity existed between the SES subgroup and that of the AS and W subgroups. The county curriculum staff and school staff are urged to address these subgroups in the county and school Five-Year Strategic Plans and apply interventions to improve achievement of all students.

Adequate Yearly Progress (AYP) Information by Class data indicated scores below mastery in both mathematics and reading: Grade 3 – 66.67 percent in mathematics and 33.33 percent in reading. These scores have implication for the Five-Year Strategic Plan and school improvement.

The following professional development and/or training opportunities were available.

1. Positive Behavior Support.
2. Autism Training.
3. Special Education Forum.
4. Health Issues for the Classroom Teacher.
5. Jefferson Primary Mathematics Retreat.
6. Discovery Health Training.
7. Holes in the Hills.
8. Writing Roundup.

FOLLOW-UP REVIEW

Met Standard.

Beech Bottom Primary School demonstrated a substantial increase in percent proficient, most notably the economically disadvantaged (SES) subgroup that increased from 50.00 percent in 2005-2006 to 78.26 percent in 2006-2007 (mathematics) and increased in reading/language arts from 61.53 percent in 2005-2006 to 82.60 percent in 2006-2007.

The school was recognized as a National Title I school for closing the achievement gap.

EDUCATION PERFORMANCE AUDIT

HIGH QUALITY STANDARDS

Necessary to Improve Performance and Progress.

6.2. Student and School Performance

- 6.2.2. Counseling services. Counselors shall spend at least 75 percent of the work day in a direct counseling relationship with students, and shall devote no more than 25 percent of the work day to counseling-related administrative activities as stated in W.Va. Code §18-5-18b. (W.Va. Code §18-5-18b; Policy 2315)**

The Team could not verify that the guidance counselor was spending at least 75 percent of the work day in working with students. A counselor's log was not available for review and the principal could not discuss the direct student counseling activities or the time the counselor spent counseling students. Teachers interviewed were also unable to explain incidents of counseling activities.

FOLLOW-UP REVIEW

COMPLIANCE. The Team reviewed the counselor's log which clearly verified that at least 75 percent of the counselor's work day was spent in a direct counseling relationship with students.

The principal stated that he ensured that the counselor spent 75 percent of the day either in classrooms, providing individual and/or group counseling services, and working with the positive support program.

6.4. Regulatory Agency Reviews

- 6.4.1. Regulatory agency reviews. Determine during on-site reviews and include in reports whether required reviews and inspections have been conducted by the appropriate agencies, including, but not limited to, the State Fire Marshal, the Health Department, the School Building Authority of West Virginia, and the responsible divisions within the West Virginia Department of Education, and whether noted deficiencies have been or are in the process of being corrected. The Office of Education Performance Audits may not conduct a duplicate review or inspection nor mandate more stringent compliance measures. (W.Va. Code §§18-9B-9, 10, 11, 18-4-10, and 18-5A-5; Policy 1224.1; Policy 8100; W.Va. Code §18-5-9; Policy 6200; Section 504, Rehabilitation Act of 1973 §104.22 and §104.23; Policy 4334; Policy 4336)**

Five citations by the West Virginia State Fire Marshal had not been corrected from the 11/02/06 inspection. These included: Add sprinkler head to 1st floor near Room 104; add sprinkler head to freezer that is being used as storage;

improper sprinkler coverage on 2nd floor near computer laboratory; wire water heater correctly; and extension cords are not permitted.

Two citations by the West Virginia Department of Agriculture Donated Foods program had not been corrected from the 10/31/05 audit. These included: Kitchen ceiling has peeling/flaking paint and lights nonfunctional in upright cooler.

FOLLOW-UP REVIEW

COMPLIANCE. All regulatory agency review citations had been corrected except for the nonfunctional lights in the upright cooler. The principal had a submitted work order for the lights which was scheduled for this summer (2008).

6.6. Personnel

6.6.3. Evaluation. The county board adopts and implements an evaluation policy for professional and service personnel that is in accordance with W.Va. Code, West Virginia Board of Education policy, and county policy. (W.Va. Code §18A-2-12; Policy 5310; Policy 5314)

The principal had not conducted the required number of observations for each teacher evaluation. Sign-in sheets were not available for persons to access teacher evaluations.

FOLLOW-UP REVIEW

COMPLIANCE. The Team reviewed observations and evaluations of three teachers. The required number of observations had been held for each teacher's evaluation. Sign-in sheets were included in each folder for the Team to sign prior to accessing the personnel files.

RECOMMENDATIONS

6.1.12. Multicultural activities. Several multicultural activities were occurring; however, teachers were not aware of a Multicultural Plan. The Team recommended that teachers be given a copy of the county Multicultural Plan and provided staff development on its implementation.

FOLLOW-UP REVIEW

RECOMMENDATION FOLLOWED. All teachers interviewed were aware of the school's Multicultural Plan.

6.2.3. Lesson plans and principal feedback. One teacher had “Snow Day” written in the lesson plans with no other plans for the day. This indicated that the lesson plans were not developed in advance as required by West Virginia Board of Education Policy 2510. The Team recommended that the principal review the lesson plans carefully for advanced planning rather than the plan serving as a journal.

FOLLOW-UP REVIEW

RECOMMENDATION FOLLOWED. All lesson plans the Team reviewed were thorough and developed in advance.

INDICATORS OF EFFICIENCY

Indicators of efficiency for student and school system performance and processes were reviewed in the following areas: Curriculum delivery, including but not limited to, the use of distance learning; facilities; administrative practices; personnel; utilization of regional education service agency, or other regional services that may be established by their assigned regional education service agency. This section contains indicators of efficiency that the Education Performance Audit Team assessed as requiring more efficient and effective application.

The indicators of efficiency listed are intended to guide Beech Bottom Primary School in providing a thorough and efficient system of education. Brooke County is obligated to follow the Indicators of Efficiency noted by the Team. Indicators of Efficiency shall not be used to affect the approval status of Brooke County or the accreditation status of the schools.

7.1.1. Curriculum. The school district and school conduct an annual curriculum audit regarding student curricular requests and overall school curriculum needs, including distance learning in combination with accessible and available resources.

Beech Bottom Primary School has traditionally had high scores on the WESTEST in all areas. The Team conducted interviews and observations to identify the reason for the drastically low scores for Grade 3 in mathematics and reading/language arts for the 2005-2006 school year. A new teacher who had spent many years at the high school level came to Beech Bottom Primary for one year and was in the Grade 3 position for the 2005-2006 school year. The teacher transferred to another position in the county for the 2006-2007 school year. Team observations and interviews indicated that high quality instruction was occurring in Grade 3 at this time and the Team believed that WESTEST Grade 3 percent proficient will increase during the 2007 Statewide Assessment.

FOLLOW-UP CONCLUSION

The 2007 WESTEST mathematics percent proficient increased 13.52 percent for the all students (AS) and racial/ethnicity white (W) subgroups and increased 28.26 percent for the economically disadvantaged (SES) subgroup.

IDENTIFICATION OF RESOURCE NEEDS

A thorough and efficient system of schools requires the provision of an adequate level of appropriately managed resources. The West Virginia Board of Education adopted resource evaluation as a part of the accreditation and evaluation process. This process is intended to meaningfully evaluate the needs for facilities, personnel, curriculum, equipment and materials in each of the county's schools and how those impact program and student performance.

17.1. Facilities, equipment, and materials. Facilities and equipment specified in Policy 6200, Chapters 1 through 14, are available in all schools, classrooms, and other required areas. A determination will be made by using the Process for Improving Education (W.Va. Code §18-2E-5) whether any identified deficiencies adversely impact and impair the delivery of a high quality educational program if it is below the West Virginia Board of Education standards due to inadequacies or inappropriate management in the areas of facilities, equipment, and materials. The Education Performance Audit Teams shall utilize an assessment instrument for the evaluation of school facilities which generally follows the requirements of Policy 6200. Note: Corrective measures to be taken in response to any identified resource deficiency will of necessity be subject to the feasibility of modifying existing facilities, consideration of alternative methods of instructional delivery, availability of funding, and prioritization of educational needs through Comprehensive Educational Facilities Plans and the West Virginia School Building Authority. This policy does not change the authority, judgment, or priorities of the School Building Authority who is statutorily responsible for prioritizing "Need" for the purpose of funding school improvements or school construction in the State of West Virginia or the prerogative of the Legislature in providing resources. (Policy 6200 and *Tomblin v. Gainer*)

According to the items checked in the School Facilities Evaluation Checklist, the school was below standard in the following areas. The principal checked and the Team confirmed the following school facility resource needs.

- 17.1.1. School location.** The site was not five acres and was not large enough for future expansion.
- 17.1.3. Teachers' workroom.** Communication technology was not provided.
- 17.1.10. Specialized instructional areas.** The art facility did not have two deep sinks, mechanical ventilation, a ceramic kiln, or black-out areas. The music facility did not have folding chairs, music stands, a podium, or acoustical treatment. The physical education facilities did not have a shower, forced ventilation, or a display case.
- 17.1.14. Food service.** A locker/dressing room and toilet were not available.

17.1.15. Health service units. A health service unit of adequate size was not available. Curtained or small rooms with cots, a bulletin board, and a work counter were not available.

FOLLOW-UP CONCLUSION

17.1.1. School location. No change.

17.1.3. Teachers' workroom. The teachers' workroom has a telephone.

17.1.10. Specialized instructional areas. The art facility has one sink. No change in other listed facility resource needs.

17.1.14. Food service. A locker was available. No change in other area.

17.1.15. Health service units. A room containing a cot was provided. No change in other areas.

School Accreditation Status

School	Accreditation Status	Education Performance Audit High Quality Standards	Annual Performance Measures Needing Improvement	Date Certain
10-201 Beech Bottom Primary	Full Accreditation			

Education Performance Audit Summary

The Office of Education Performance Audits recommends that the West Virginia Board of Education continue the Full Accreditation status of Beech Bottom Primary School.
