### 202 MAYSVILLE ELEMENTARY SCHOOL – SUCCESS

Michele Crites, Principal

Grades PK-06, Enrollment 162

In 2013, West Virginia received waiver approval from certain federal rules and deadlines under the Elementary and Secondary Education Act (ESEA). West Virginia received approval to use its own accountability system which was developed to more effectively identify struggling schools and better direct resources to these schools (2013 ESEA Results). Every public school in the state is designated as a **SUCCESS, TRANSITION, FOCUS, SUPPORT** or **PRIORITY** school.

The West Virginia Accountability Index (WVAI) designated Maysville Elementary School a Success school. The majority of student subgroups are making academic progress against the annual academic goals in mathematics and reading/language arts; and the school has reached its goals in attendance or graduations rates. Success schools have demonstrated the ability to implement continuous improvement practices. The school must continue to increase student achievement each year to keep this designation. A school's designation is determined once a year based on prior school year data, including WESTEST2 results.

### Designation Status for Maysville Elementary School.

The West Virginia Accountability Index targets were set for each school to reach progressively higher performance on a defined set of data. Schools have an overall score based on multiple components of student and school performance. All schools were required to meet the same end point, thus defining school-specific trajectories requiring higher rates of improvement for lower performing schools. Targets comprised of the five components listed above were set with a goal of all elementary schools in West Virginia reaching 74.6679 by 2020. Proficiency targets are set at 75 percent for all students in all subgroups by 2020.

Maysville Elementary School achieved the Accountability Index Target and has exceeded the required score of 74.6679; however, the achievement target of 75 percent for all students has not been obtained. Continued efforts by all staff are necessary to reach the goal of 75 percent proficient by 2020.
