INTRODUCTION

An announced Education Performance Audit of West Fairmont Middle School in Marion County was conducted December 8, 2010.

A Follow-up Education Performance Audit of West Fairmont Middle School was conducted November 15, 2011. The purpose of the follow-up review was to verify correction of the findings identified during the original Education Performance Audit. The review was in accordance with West Virginia Code §18-2E-5 and West Virginia Board of Education Policy 2320 which specify that a school that meets or exceeds the performance and progress standards but has other deficiencies shall remain on full accreditation status and a county school district shall remain on full approval status for the remainder of the accreditation period and shall have an opportunity to correct those deficiencies. The Code and policy include the provision that a school “. . . does not have any deficiencies which would endanger student health or safety or other extraordinary circumstances as defined by the West Virginia Board of Education.”

ANNUAL PERFORMANCE MEASURES FOR ACCOUNTABILITY

Achieved Standard.

5.1.1. Achievement.

West Fairmont Middle School failed to achieve adequate yearly progress (AYP) in the special education (SE) subgroup in reading/language arts. West Fairmont Middle School achieved AYP in the racial/ethnicity black (B), the SE, and the economically disadvantaged (SES) subgroups in mathematics, and the B and SES subgroups in reading/language arts only by application of the confidence interval. The county curriculum staff and school staff are urged to address these subgroups in the county and school Five-Year Strategic Plans and apply interventions to improve achievement of all students.

Adequate Yearly Progress (AYP) Information by Class indicated scores below mastery and novice in both mathematics and reading: Grade 5 – 51.49 percent in mathematics and 55.22 percent in reading; Grade 6 – 46.01 percent in mathematics and 55.21 percent in reading; Grade 7 – 56.69 percent in mathematics and 56.05 percent in reading; Grade 8 – 57.36 percent in mathematics and 50.00 percent in reading. These scores have implication for the Five-Year Strategic Plan and school improvement.

West Virginia Board of Education Policy 2320, *A Process for Improving Education-Performance Based Accreditation System* in Section §126-13-6 provides:

6.1. A system of points on an index will be used to assess and weigh annual performance measures for state accreditation of schools and approval of school systems that gives credit or points on an index to prevent any one measure alone from causing a school to achieve less than full accreditation status or a school system from achieving less than full approval status: Provided, That a school or school system that achieves AYP is eligible for no less than full accreditation or full approval status, as applicable, and the system established pursuant to this subsection shall only apply to schools and school systems that do not achieve AYP.

The index showed that West Fairmont Middle School performed within the point range (765 – 505) for distinction accreditation status.

The following professional development and/or training opportunities were provided as reported by the principal.

1. Data Analysis.
2. Confidentiality Training.
3. TechSteps.
4. Thinkfinity.
5. Acuity.
6. West Virginia Writes.
7. Professional Learning Communities.
8. Response to Intervention.
9. Cambium Vmath.
10. MOBI Training.

FOLLOW-UP REVIEW

Achieved Standard.

The index showed that West Fairmont Middle School performed within the point range (755.60-553.03) for distinction accreditation status.

West Fairmont Middle School continued to offer professional development and/or training opportunities such as the ones below as reported by the principal.

- 1. Document Based Questions (DBQ).**
- 2. Lexile/quantile.**
- 3. Academic Vocabulary.**
- 4. Working in Collaborative Teams.**
- 5. Reading Assistance.**
- 6. School Leadership Team.**

EDUCATION PERFORMANCE AUDIT

HIGH QUALITY STANDARDS

Necessary to Improve Performance and Progress.

7.1. Curriculum

- 7.1.4. Instruction.** Instruction is consistent with the programmatic definitions in West Virginia Board of Education Policy 2510, *Assuring the Quality of Education: Regulations for Education Programs* (hereinafter Policy 2510). (Policy 2510)

Grades 6 and 7 science teachers reported 40 percent laboratories and hands-on activities in their classes. There was no reported lack of materials. West Virginia Board of Education Policy 2520.3 – 21st Century Science K-8 Content Standard and Objectives for West Virginia Schools, states, “Students will engage in active inquiries, investigations, and hands on activities for a minimum of 50 percent of the instructional time to develop conceptual understanding and research/laboratory skills.”

FOLLOW-UP REVIEW

COMPLIANCE. The Team visited science classes, reviewed teacher lesson plans, and interviewed teachers and determined science instruction in Grades 6 and 7 met the requirement of at least 50 percent active inquires, investigations, and hands on activities.

7.2. Student and School Performance

7.2.1. County and School electronic strategic improvement plans. An electronic county strategic improvement plan and an electronic school strategic improvement plan are established, implemented, and reviewed annually. Each respective plan shall be a five-year plan that includes the mission and goals of the school or school system to improve student or school system performance or progress. The plan shall be revised annually in each area in which the school or system is below the standard on the annual performance measures.

Revisions were needed to the school's Five-Year Strategic Plan.

Category	Criteria	Approved	Needs Improvement
Plan Committee	<ul style="list-style-type: none"> ➤ Stakeholders represent various school groups and committees that can assist in aligning improvement efforts toward common goals. ➤ Provides a narrative describing how the plan was written and how it is monitored and revised throughout the year. ➤ Verifies how parents, community and other external stakeholders are involved in the development and revisions of the plan. 		<p>Students should be included on planning committee.</p> <p>Narrative needs to explain plan for monitoring/revising on a continuing basis.</p>
Parental Involvement	<ul style="list-style-type: none"> ➤ Plan embeds parental involvement ➤ High expectations for parents, families, and community to become partners in education ➤ Utilizes community resources to strengthen school programs ➤ Current county/school parent involvement initiatives are listed. 	Great use of community resources.	Need to embed parental involvement initiatives into the plan.

FOLLOW-UP REVIEW

COMPLIANCE. The school's Five-Year Plan was rewritten last year and submitted to the West Virginia Board of Education and was approved as revised. The plan has been rewritten this year and incorporated the new State and county goals.

7.2.3. Lesson plans and principal feedback. Lesson plans that are based on approved content standards and objectives are prepared in advance and the principal reviews, comments on them a minimum of once each quarter, and provides written feedback to the teacher as necessary to improve instruction. (Policy 2510; Policy 5310)

Five teachers did not have inclusive lesson plans from the beginning of the school year. However, these teachers provided lesson plans for the day and or week of the Education Performance Audit.

The Team found the following circumstances regarding those lesson plans.

- | | |
|-----------|---|
| Teacher 1 | Lesson plans contained in the lesson plan book began November 1, 2010. No planning was shown prior to November 1. |
| Teacher 2 | Lesson plans were only available for the current week. No other plans were available. |
| Teacher 3 | Lesson plans were only available for the current week and for the weeks that lesson plans were reviewed. |
| Teacher 4 | Lesson plans were for the current day. The teacher said the rest of the plans were in the spouse's car. |
| Teacher 5 | Some daily lesson plans were missing. |

Four teachers had lesson plans that were not complete and/or could not be followed by a substitute teacher. The principal must ensure that all teachers have lesson plans that are written in advance and can be followed by a substitute teacher.

FOLLOW-UP REVIEW

COMPLIANCE. The Team visited the classrooms identified in the original Education Performance Audit report for lesson planning and some teachers who were not interviewed, interviewed the teachers, and reviewed lesson plan books which teachers were keeping on their desks. All plans the Team reviewed met the standards for good lesson plans and evidence verified the principal had reviewed the lesson plans and provided comments.

RECOMMENDATION

7.1.12. Multicultural activities. While there were numerous examples of multicultural activities within individual classrooms, the Team believed there needed to be better schoolwide planning. Interviews found that there was not a strong buildingwide approach to multicultural activities and some teachers did not actively participate in providing multicultural activities to much extent.

FOLLOW-UP REVIEW

RECOMMENDATION FOLLOWED. The Team reviewed the Marion County Multicultural Education Plan and the West Fairmont Middle School Multicultural Plan which had been prepared by the school staff. The plans contained the goals and activities for multicultural education and the plans were being implemented.

Indicators of Efficiency

Indicators of efficiency for student and school system performance and processes were reviewed in the following areas: Curriculum delivery, including but not limited to, the use of distance learning; facilities; administrative practices; personnel; utilization of regional education service agency, or other regional services that may be established by their assigned regional education service agency. This section contains indicators of efficiency that the Education Performance Audit Team assessed as requiring more efficient and effective application.

The indicators of efficiency listed are intended to guide West Fairmont Middle School in providing a thorough and efficient system of education. Marion County is obligated to follow the Indicators of Efficiency noted by the Team. Indicators of Efficiency shall not be used to affect the approval status of Marion County or the accreditation status of the schools.

8.1.1. Curriculum. The school district and school conduct an annual curriculum audit regarding student curricular requests and overall school curriculum needs, including distance learning in combination with accessible and available resources.

The Team saw excellent instruction and student time on task and it was evident that the teachers and administration were working toward increasing student achievement. The principal was providing high quality leadership and the teachers were knowledgeable of the students' needs. The Team strongly recommended that the school continue to elicit support from the Marion County central office, RESA 7, the West Virginia Center for Professional Development, and the West Virginia Department of Education to investigate and implement high quality professional development to more effectively deliver curriculum.

FOLLOW-UP REVIEW CONCLUSION

The school principal reported receiving excellent support from the Marion County Central Office staff, RESA 7 staff, the West Virginia Center for Professional Development, and the West Virginia Department of Education. This support continued throughout last year and into this year. Some of the support activities included the following.

- 1. Multiple staff development opportunities provided by the county to the school staff and the school Leadership Team.**
- 2. Implementation of the RESA 21st Century Project ISSAC which provides after school programs in which students receive homework support, enrichment activities, math tutoring, and reading tutoring. Students are provided dinner and transportation home.**

3. **Staff training in school improvement provided by the West Virginia Department of Education.**
4. **Teacher Leadership Institute.**
5. **Principals' Institute provided by the West Virginia Center for Professional Development.**

Building Capacity to Correct Deficiencies

West Virginia Code §18-2E-5 establishes that the needed resources are available to assist the school or school system in achieving the standards and alleviating the deficiencies identified in the assessment and accountability process. To assist West Fairmont Middle School in achieving capacity, the following resources are recommended.

- 18.1. Capacity building is a process for targeting resources strategically to improve the teaching and learning process. School and county electronic strategic improvement plan development is intended, in part, to provide mechanisms to target resources strategically to the teaching and learning process to improve student, school, and school system performance.**

The Team believed that the principal and staff have the capacity to correct the issues found at the school.

The Team recommended that the Marion County School System Superintendent and the school administrator contact Mr. Charles Heinlein, Executive Director, Office of School Improvement at 304-558-3199 to arrange a School Support System visit for correcting the deficiencies and improving student and school performance.

FOLLOW-UP REVIEW CONCLUSION

The principal of West Fairmont Middle School contacted the West Virginia Department of Education, Office of School Improvement, and was provided a wealth of support. The System of School Support conducted a review of the school to help the school staff determine the components needed in a Support Plan. Michele Blatt, Assistant Director of the Office of School Improvement, led the support team and was assisted by Shelly DeBerry, David Price and Nancy Cline, Office of School Improvement Coordinators; Don Chapman, Assistant Director in the Office of Healthy Schools; and Ted Mattern, Liaison to the State Superintendent of Schools. From the results of this review the West Fairmont Middle School Staff, with the assistance of the personnel from the West Virginia Department of Education, prepared a school improvement plan which addressed the areas needing improvement as reflected from the school review. This support program was effectively being implemented.

Identification of Resource Needs

A thorough and efficient system of schools requires the provision of an adequate level of appropriately managed resources. The West Virginia Board of Education adopted resource evaluation as a part of the accreditation and evaluation process. This process is intended to meaningfully evaluate the needs for facilities, personnel, curriculum, equipment and materials in each of the county's schools and how those impact program and student performance.

19.1. Facilities, equipment, and materials. Facilities and equipment specified in Policy 6200, Chapters 1 through 14, are available in all schools, classrooms, and other required areas. A determination will be made by using the Process for Improving Education (W.Va. Code §18-2E-5) whether any identified deficiencies adversely impact and impair the delivery of a high quality educational program if it is below the West Virginia Board of Education standards due to inadequacies or inappropriate management in the areas of facilities, equipment, and materials. The Education Performance Audit Teams shall utilize an assessment instrument for the evaluation of school facilities which generally follows the requirements of Policy 6200. Note: Corrective measures to be taken in response to any identified resource deficiency will of necessity be subject to the feasibility of modifying existing facilities, consideration of alternative methods of instructional delivery, availability of funding, and prioritization of educational needs through Comprehensive Educational Facilities Plans and the West Virginia School Building Authority. This policy does not change the authority, judgment, or priorities of the School Building Authority of West Virginia who is statutorily responsible for prioritizing "Need" for the purpose of funding school improvements or school construction in the State of West Virginia or the prerogative of the Legislature in providing resources. (Policy 6200 and *Tomblin v. Gainer*)

According to the items checked in the School Facilities Evaluation Checklist, the school was below standard in the following areas. The principal checked and the Team confirmed the following school facility resource needs.

- 19.1.1. School location.** The school site was not well landscaped and was not suitable for special instructional needs, i.e., outdoor learning. The playgrounds/recreational areas were not well equipped and appropriate for the age level.
- 19.1.5. Library/media and technology center.** On-line periodical indexes were not available.
- 19.1.10. Specialized instructional areas.** The art facility did not have display facilities. The music facility did not have acoustical treatment. The physical education facility did not have a drinking fountain or a display case.

- 19.1.11. Grades 6-12 science facilities.** The science facilities were not located with easy access to outdoor activities and isolated to keep odors from the remainder of the building. The following equipment and materials were not available for all science classes: AC and DC current, compressed air, gas, ventilation fume hood, demo table, sufficient laboratory workspace, fire extinguisher, blanket, and main gas shut-off.
- 19.1.12. Grades 7-12 auditorium/stage.** The school did not have an auditorium/stage.
- 19.1.14. Food service.** A teachers' dining area of adequate size was not provided.
- 19.1.15. Health service units.** A health service unit of adequate size was not available. The health service unit did not have a bulletin board, toilet, or refrigerator with locked storage.

FOLLOW-UP REVIEW CONCLUSION

All facility resource needs remained the same as identified in the original Education Performance Audit report with the exception of the following.

- 19.1.15.** The school was in the process of securing the refrigerator with a lock.

Early Detection and Intervention

One of the most important elements in the Education Performance Audit process is monitoring student progress through early detection and intervention programs.

West Fairmont Middle School must continue to strive to provide high quality instruction based on thorough data analysis, the West Virginia 21st Century content standards and objectives, and the goals and action steps contained in the school's Five-Year Strategic Plan.

The School Support System presented under the Capacity Building Section will be an invaluable resource in guiding school improvement.

FOLLOW-UP REVIEW TEAM SUMMARY

The school with the assistance of the West Virginia Department of Education personnel has prepared a comprehensive school support system which is currently being implemented. The strategic plan has been rewritten with current school, county and State Board of Education goals which were being implemented during this school year. The school appeared well organized with a committed staff that is diligently working to improve student learning.

SCHOOL ACCREDITATION STATUS

School	Accreditation Status	Education Performance Audit High Quality Standards	Annual Performance Measures Needing Improvement	Date Certain
West Fairmont Middle School	Distinction Accreditation			

Education Performance Audit Summary

The Office of Education Performance Audits recommends that the West Virginia Board of Education continue the Distinction Accreditation status of West Fairmont Middle School.
