Re: Policy 2510 Instructional Time Requirements and Breakfast

This memo is written to clarify the Office of Education Performance Audits (OEPA) position regarding instructional time requirements set forth in West Virginia Board of Education Policy 2510 related to students having breakfast during class time. The OEPA recognizes the importance of breakfast in preparing students for learning each day to enhance their potential for academic achievement. OEPA further recognizes that allowing breakfast in the classroom is acceptable in fulfilling instructional time requirements, as long as educational activities (relative to the CSOs for the class) are occurring.
