FOREWORD

West Virginia Code §18-2E-5 and West Virginia Board of Education Policy 2320, *A Process for Improving Education: Performance Based Accreditation System*, specify that the State Board shall annually review the information from the system of Education Performance Audits and issue an accreditation status to each school and an approval status to each county school system. The accreditation/approval status of schools and school systems is based on the performance of students, schools, and school systems. Accreditation status of schools and approval status of county school systems include extensive student performance measures for accountability that indicate when a thorough and efficient system of schools is being provided by schools and school systems. This report also indicates progress of schools and county school systems in achieving the No Child Left Behind requirements.

The *2005 Report of Ratings* reflects the accreditation status of each school in West Virginia and the approval status of each school district. It shows historical data regarding accountability and the current status of schools and school districts. It is our goal that this document conveys information concerning the education provided by West Virginia's schools.

IMPLEMENTING A PROCESS FOR IMPROVING EDUCATION: PERFORMANCE BASED ACCREDITATION SYSTEM HISTORICAL OVERVIEW

High quality educational standards based on State Code, State Board policies, and student and school performance measures were adopted by the West Virginia Board of Education in November 1989. These high quality standards and performance measures were first applied to all fifty-five (55) county school districts and individual schools within the districts during the 1989-90 school year. This annual assessment of high quality standards and performance measures, in addition to on-site effectiveness reviews, comprises the implementation of A Process for Improving Education: Performance Based Accreditation System. This system emphasizes student, school, and school system performance, processes, and progress.

Elements of A Process for Improving Education: Performance Based Accreditation System include: standards, assessment, accountability, capacity building, resource evaluation, and early detection and intervention.

West Virginia Code §18-2E-5 requires that each district submit a Unified County Improvement Plan designed around locally identified needs showing how the education program of each school in the district meets or exceeds the high quality standards. The Code also states that the State Board annually shall review the performance of each school and shall issue an accreditation status to each school and an approval status to each county board of education.

The first cycle of on-site reviews was conducted during the 1989-90 school year. Education performance audit teams review the education programs in the schools and school districts throughout the state. Fifty-five (55) school districts have experienced on-site reviews.

West Virginia's school district and school accountability system continues to evolve. The system is updated according to enactments of the West Virginia Legislature, federal education, and legal requirements.

SCHOOL DISTRICT AND SCHOOL RATINGS

A single statewide accountability system is applied to all public schools and local education agencies (county school districts) in the State. Every county school district and school in West Virginia receives an individual rating.

The West Virginia Board of Education issues the county school district one of the following:

Full Approval. Full approval is issued to a county board whose schools have all been issued full, conditional, or temporary accreditation status and which does not have any deficiencies which would endanger student health or safety or other extraordinary circumstances as defined by the West Virginia Board of Education.

Conditional Approval. Conditional approval is issued to a county board whose education system is below the level required for full approval, but whose Unified County Improvement Plan has been revised to achieve full approval status by a date certain, the plan has been approved by the West Virginia Board of Education, and the county board is meeting the objectives and time line specified in the revised plan.

Temporary Approval. Temporary approval is issued to a county board whose education system is below the level required for full approval. Whenever a county board is given temporary approval status, the county board shall revise its Unified County Improvement Plan to increase the performance and progress of the school system to a full approval status level.

Nonapproval. Nonapproval is issued to a county board of education when one or more of the following conditions exist:

- The county board fails to submit and gain approval for its Unified County Improvement Plan.
- A county board on temporary approval status fails to submit its revised Unified County Improvement Plan within 30 days following written notification of the temporary approval status.
- A county board on conditional approval status fails to meet the objectives and time line of its revised plan.
- A county board on conditional approval status fails to achieve full approval by the date certain specified in the revised plan.
- The West Virginia Board of Education determines that extraordinary circumstances exist.
- Any county board that fails to submit and gain approval of a plan before the end of the fiscal year after a deficit greater than a casual deficit occurred or any county which fails to comply with an approved plan may be designated as having nonapproval status.

Each school is issued one of the following:

Exemplary Accreditation. Exemplary accreditation status is awarded when the school's performance and progress meet or exceed the standards adopted by the West Virginia Board of Education.

Full Accreditation. Full accreditation status is granted when the school's performance and progress meet or exceed the standards adopted by the West Virginia Board of Education and the school does not have any deficiencies which would endanger student health or safety or other extraordinary circumstances as defined by the West Virginia Board of Education.

Conditional Accreditation. Conditional accreditation status is issued to a school when the school's performance and progress are below adequate yearly progress AYP, but the school's Unified School Improvement Plan has been revised to improve performance and progress on the standard or standards by a date or dates certain, the plan has been approved by the West Virginia Board of Education, and the school is meeting the objectives and time line in the revised plan.

Temporary Accreditation. Temporary accreditation status is issued to a school when the school's performance and progress are below AYP for two or more consecutive years. Whenever a school is issued temporary accreditation status, the county board shall ensure that the school's Unified School Improvement Plan is revised to increase the performance of the school to full accreditation status. The revised plan shall include objectives, a time line, a plan for evaluation of the success of the improvements, cost estimates, and a date certain for achieving full accreditation status.

Seriously Impaired. A school shall be considered to be seriously impaired by the West Virginia Board of Education when one or more of the following conditions exist.

The school is below the criteria for full accreditation in three of the following performance measures: 5.1.1 student achievement; 5.1.2 participation rate; and 5.1.3 attendance rate or 5.1.4 graduation rate.

The West Virginia Board of Education may determine a school to be seriously impaired when extraordinary circumstances exist. Extraordinary circumstances are conditions that constitute major impediments to the provision of educational programs and services for students. Extraordinary circumstances shall include, but are not limited to, the following conditions.

- The failure of a school on temporary accreditation status to obtain approval of its revised Unified School Improvement Plan within a reasonable time period as defined by the West Virginia Board of Education.

- The failure of a school on conditional accreditation status to meet the objectives and time line in the revised plan or to achieve full accreditation by the date specified in the revised plan.

- Extraordinary circumstances may also include the following: Physical or other abuse of students; inappropriate suspensions and/or expulsions; misappropriation of funds; misuse of public funds; falsification of reports and/or failure to submit required reports; violation of W.Va. Code and West Virginia Board of Education policies that impact the provision of an appropriate educational program; unhealthy or unsafe conditions for students and/or employees; or failure to provide a high quality and equal educational opportunity for students which can be directly attributed to deficiencies in leadership according to Section 7.12 of Policy 2320 and to the school's resources in facilities, personnel, curriculum, and/or equipment and materials. (Policy 1340)

OVERVIEW

This is the 16th year for reporting the approval status of school districts and the accreditation status of schools required by West Virginia Code §18-2E-5 and West Virginia Board of Education Policy 2320.

This report identifies school districts and schools that fail to meet requirements and provides an impetus for action to correct identified deficiencies. It also identifies schools that comply with the requirements of State Code and State Board policies, and the *No Child Left Behind Act of 2001*. The results of the education performance auditing system are intended to strengthen education in West Virginia by:

- Providing a mechanism for self-assessment by the school districts and schools to identify specific areas needing attention and to prioritize goals and objectives through their county and school Unified Improvement Plans;

- identifying areas for which technical assistance may be targeted;

- providing information to the West Virginia Board of Education, the Governor, the Legislature, the Process for Improving Education Council, and other West Virginia agencies to be used in decision-making based on school needs for consideration by the School Building Authority, Regional Educational Service Agencies, and for competitive grants, school recognition programs, etc., and

- providing information to the Governor, the Legislature, the Process for Improving Education Council, and the public regarding the accreditation of public schools and the approval of school districts.

OSR (On-Site Review) Represents results of an on-site review or follow-up review.

APM (Annual Performance Measures) Represents performance measures below standard.

An asterisk (*) indicates that performance measures were not applied to special education or alternative schools. Two asterisks (**) indicate that performance measures were not applied to vocational-technical centers.

The pages that follow identify the performance measures and the high quality standards that determined the conditional approval, temporary approval, or nonapproval status for school districts and the conditional accreditation, temporary accreditation, or seriously impaired status for schools.

In assessing the status of schools on the performance measures, the most recent data were reviewed.

5.1.1. **Achievement (WESTEST)**
Grades 3, 4, 5, 6, 7, 8, and 10 - spring 2005

5.1.2. **Participation rate**
Spring 2005

5.1.3. **Attendance rate (Elementary and Middle Schools)**
School year 2004-2005

5.1.4. **Graduation rate (High Schools)**
School year 2004-2005

Exemplary Accreditation Status

The following performance measures listed are achieved and all the high quality standards are met.

10.1. At least 80 percent of the school's students score at or above mastery in the All Students (AS) subgroup in reading/language arts, mathematics, science, and social studies, and the school achieves AYP in each subgroup.
10.2. At least 30 percent of all students score above mastery or distinguished in reading/language arts, mathematics, science, and social studies.
10.3. The student attendance rate is at or above 94 percent in the most recent year for which data are available.
10.4. The student graduation rate is at or above 85 percent.
10.5. Twenty percent or more of the school's students score at or above four on the Writing Assessment. (Commencing 2005-2006)

10.6. The percentage of graduates of high schools who declare their intent to enroll in college and other post-secondary education is 55 percent.

10.7. The percentage of students who successfully complete Advanced Placement, dual credit, and honors classes as defined in Policy 2510 is at or above five percent in high schools.

10.8. During an Office of Education Performance Audits review, a K-2 school will be assessed to determine if it qualifies as a Distinguished/Exemplary School. The review team will examine data presented by the school and determine if the school has 80 percent of the students proficient in reading and mathematics. Data and information to be examined by the review team may include but is not limited to the following: Individual student assessment data in reading and mathematics, research-based practices in reading and mathematics, successful acceleration/remediation programs, a structure to address the needs of special education students, strategies/programs which support a consistent method of teaching writing, and a program of studies aligned with the State curriculum standards.

10.9. Career and Technical Education Schools. Career and Technical Education Schools Exemplary Schools are those that have met minimum standards on all determiners, and have a school average of 74 percent or above on State administered end-of-course technical skills tests given to students in that school during the previous school year. The determiners for the 2005-2006 school year are: Academic Skill Proficiency, Technical Skill Proficiency, Placement, and Placement in Field.

10.10. Career and Technical Education Schools Status Determiners effective for the 2004-2005 school year.

10.10.1. Academic skill proficiency. 50.40 percent of completers in all concentrations will be at or above the appropriate Work Keys reading and mathematics level for their concentration.

10.10.2. Technical skill proficiency. 46.55 percent of students tested in each concentration will score 74 percent or better on the State administered end-of-course technical skills tests.

10.10.3. Placement. The school average placement for secondary and adult completers for the year will be at least 90 percent.

10.10.4. Placement in field. The school average rate of completers employed in a field related to their technical education concentration will be 60 percent.

Full Accreditation Status

5.1.1. Achievement. A student who is enrolled continuously in that school from the first instructional day of September to the spring testing window will be included when determining if the school has made adequate yearly progress.

5.1.2. Participation rate at or above 95 percent in the current year or a two or three year average.

5.1.3. Attendance rate for elementary and middle schools at or above 90 percent or improved from the preceding year.

5.1.4. Graduation rate at 80 percent or improved from the preceding year.

Conditional Accreditation Status

The school's performance and progress are below AYP, but the school's Unified Improvement Plan has been revised to improve performance and progress on the standard or standards by a date certain, the plan has been approved by the West Virginia Board of Education, and the school is meeting the objectives and time line in the revised plan.

Temporary Accreditation Status

The school's performance and progress are below AYP for two or more consecutive years.

Seriously Impaired Status

11.1. The school falls below the criteria for full accreditation in three of the following performance measures: 5.1.1, student achievement; 5.1.2, participation rate; and 5.1.3, attendance rate or 5.1.4, graduation rate, as applicable.

11.2. The West Virginia Board of Education may determine a school to be seriously impaired when extraordinary circumstances exist. Extraordinary circumstances are conditions that constitute major impediments to the provision of educational programs and services for students. Extraordinary circumstances shall include, but are not limited to, the following conditions.

11.2.1. The failure of a school on temporary accreditation status to obtain approval of its revised Unified School Improvement Plan within a reasonable time period as defined by the West Virginia Board of Education.

11.2.2. The failure of a school on conditional accreditation status to meet the objectives and time line in the revised plan or to achieve full accreditation by the date specified in the revised plan.

11.2.3. Extraordinary circumstances may also include the following: Physical or other abuse of students; inappropriate suspensions and/or expulsions; misappropriation of funds; misuse of public funds; falsification of reports and/or failure to submit required reports; violation of W.Va. Code and West Virginia Board of Education policies that impact the provision of an appropriate educational program; unhealthy or unsafe conditions for students and/or employees; or failure to provide a high quality and equal educational opportunity for students which can be directly attributed to deficiencies in leadership according to Section 7.12 and to the school's resources in facilities, personnel, curriculum, and/or equipment and materials. (Policy 1340)
